It seems that Mr. Anal prevails again...
Uh, yeah, I know.
Tut, tut! I've already taken measures
And it was one of mine that got it, I'll have you know.
Analbeads was one of yours, wasn't he? Do something!

I've dispatched young Carny to address the situation
What's that mean?
What about backup? No one'll work with that nutcase!!
That loon doesn't care about collateral damage!
I do.
Carny..? Wait, you can't mean-?!
I'm simply directing our resources.
By the by..
so we must rely on young Carny
I hardly think we have any other subordinate who poses a challenge to Mr. Anal,
Perhaps you'd like to deal with the matter personally?
